Subject: S/055/018 Coleman Mine - status

Joelle,

I spoke with Will Stokes, of SITLA today (7/3/00) regarding the status of Richard Coleman's proposed small mine project on state land in Wayne County. Will inspected the site during the fall of 1999 and found no disturbances. SITLA canceled the lease on 11/24/99 and essentially closed their file at that time.

Based on this information we should now be able to close out our file for this project.

PLEASE SEND A COPY OF THIS MESSAGE TO FILE S/055/018.

thank you,
tony
